## **ORDINARY MEETING AGENDA**

**THURSDAY, 24 OCTOBER 2019**

---

## ~ REFERENCE TO ATTACHMENTS ~

---

Notice of Motion – Carbon Storage and Farming Methodologies 56-63

### PART A – ACTION

*Page Number*

Clause 4A – 2018/2019 Annual Report.....Under Separate Cover

### PART B – INFORMATION

*Page Number*

Clause 4B – Meeting Minutes ..... 64-72

Clause 9B – Update on Works Report 2019/2020..... 73

Clause 11B – Rates Reconciliation Report as at 30 September 2019 .....74-75

## Available Methods

< Carbon Farming

### What can I do on farm to earn a carbon credit?

**We've listed the following 5 most popular methods farmers can use.**

1. Storing carbon in your soils
2. Planting native trees and shrubs (Native Forest)
3. Reducing nitrous oxide emissions from irrigated cotton
4. Managing stock to allow native forest to grow
5. Beef Herd Improvement - Earn a Carbon Credit by reducing methane in your Cattle Herd

### 1. Earning a carbon credit by storing carbon in your soils.

#### A Farmer's Guide to the Soil Carbon Methodology

Measurement-Based Methodology for Sequestering Carbon in Soils in Grazing Systems (V2.4)

#### Background:

It took CFA and others many years to bring a Soil Carbon Method to life - many said it would never be done.

Yet, its here. We can participate. We can earn a Carbon Credit to improve our soils carbon levels.

Some aspects are complex and soil testing is required - but over time things are changing and innovations are happening.

What follows is the Plain English explanation of the "*Measurement of Soil Carbon Sequestration in Agricultural Soils*".

We cannot afford to forget that the Soil is the Largest Carbon Sink over which we have control, and ONLY farmers can improve soil carbon on a large scale. Soil carbon sequestration has the potential to help the planet regain its balance and help the landscape regain its health. It is essential for both food security and climate security.

It remains at the forefront of what Carbon Farmers of Australia is passionate about.

**Explanation:**

This method applies to:

- Soil carbon sequestration projects (drawing down carbon from the atmosphere and storing it in soil and vegetation)
- Most Agricultural Systems including cropping, pasture, horticulture and mixed enterprises.
- Relies upon direct measurement of soil carbon to calculate sequestration (rather than a modelled approach).

**Projects can be carried out on:**

- Land has been used for grazing, cropping (including perennial woody horticulture), bare fallow or any combination of grazing, cropping or bare fallow always provided at least one or more applied over the previous 10 years (baseline period). Records showing this will be required at audit time.
- Land which has soil carbon improvement potential.
- Land which you can sample to at least a 30cm depth.

**Eligible Activities:**

Examples of activities which can be undertaken on the project area to improve soil carbon include, but are not restricted to:

- converting from cropland to permanent pasture
- changing pasture species composition
- changing grazing patterns
- water ponding activities – where water effect is ‘spread’ over a wider area, effectively increasing effective rainfall and carbon
- pasture cropping
- application of Synthetic Fertilisers
- application of Non-Synthetic Fertilisers. (There are timing requirements around these applications)
- clay spreading and clay delving
- other ‘innovative’ activities that are aimed at improving carbon stocks. These need to be assessed on a case by case basis
- ‘new’ irrigation (some definitions apply)
- compost application – depending on where the ‘waste’ material comes from
- there are some limits on the use of some waste, such as straw. This will depend on the waste stream and its origins and can be assessed on a case by case basis
- the application of amendments containing biochar are allowable under certain circumstances.

Please seek expert advice on which activities best suit your project site or submit YOUR innovative ‘carbon sequestration’ process or product to CFA for an informed opinion on its applicability.

Some activities are excluded.

Factors that influence the potential for soil carbon sequestration include:

- soil type

- climate (e.g. rainfall, temperature)
- management history and
- activity or management practice

Seek expert advice on which activities will best suit your project site. (Carbon Farmers of Australia has many years experience with known activities to improve soil carbon – please contact us for details.)

Consider...

- the financial costs and
- potential returns

...before submitting an application.

The method sets out a process for soil sampling and analysis to measure carbon levels in soil. This is reasonably complex – please ask for further details.

*NOTE: This method could be used with other CFI methods, at the same time on the same farm in different areas.*

## **2. Earn a carbon credit by planting native trees and shrubs (Native Forest).**

This method rewards those who are willing to plant trees and receive payments for the carbon stored in the trees/shrubs.

It is highly suited to GROUPS, or a Farmer wishing to establish tree plots for Shade/Shelter etc.

The reason it suits Groups (e.g. Landcare groups) is because you can get economies of scale on the buying/planting of the trees.

### **Environmental Plantings Method**

Environmental planting sequestration projects involve establishing forests of native tree species on cleared land. Establishing environmental plantings increases the removal of carbon dioxide from the atmosphere by sequestering (absorbing and storing) the greenhouse gas carbon dioxide (CO<sub>2</sub>), as carbon, in the trees and tree debris.

### **How it Works**

This method involves the establishment of a permanent planting of tree species that are native to the local area. YOU must PLANT the Trees/shrubs.

These plantings must:

- have the potential to attain a crown cover of at least 20 per cent across the area of land and a height of at least two metres on that land

- be established by either direct seeding or planting, and

**In the five years prior to the project's establishment, the project land must:**

- have been non-forested,
- have been used for grazing, pasture management, cropping, nature conservation or settlement, or no use, and
- not had woody plants removed, other than known weed species that were required to be removed by law.
- Plants cannot be removed for use as fencing.
- Livestock cannot be grazed in the project area for three years following the establishment of planting, or at any other time if this would prevent the growth of trees.
- Sequestration is calculated using a calculator supplied by the Government.

For more information get in contact with us.

### **3. Earn carbon credits by reducing nitrous oxide emissions from irrigated cotton.**

Nitrogen Fertiliser releases a potent 'greenhouse gas' when applied (nitrous oxide). Reducing this release helps the Government meet its emissions reduction target and the Government is willing to pay Farmers to do this.

This method is available ONLY to Irrigated Cotton producers.

#### **Activities Allowed**

To earn a 'carbon credit' an Irrigated Cotton Farmer needs to change their fertilizer regime. While maintaining yield. To do this they can:

- Reduce synthetic nitrogen fertilizer rates,
- OR change timing /rate/application method
- OR They may add an organic alternative
- OR Other methods to improve nitrogen fertilizer efficiency.

If you have other ideas on reduction of nitrous oxide, you are certainly able to implement these, so long as you can show a reduction in nitrous oxide.

#### **How It Works**

After your 'new' application rates are audited, the amount of nitrous oxide reductions are calculated. The difference between your 'historic' emissions from nitrogen fertilizer and the 'new' level of emissions becomes your emissions reduction and can be converted to a 'carbon credit'

#### **Requirements:**

- You need to have records of past N application rates,
- Keep records of the changed management activity,

- Be audited.

## 4. Earning carbon credits by managing stock to allow native forest to grow.

In some of the more extensive agricultural areas in Australia, where land size is relatively large and where often productivity has been falling – due to goat or other activities combined with drought and declining terms of trade – this method has been highly successful in turning around Farmers' fortunes.

It is mainly suitable for larger areas – from about 5000 hectares. Farmers are paid to change livestock management to allow the native forest to regrow.

ERF Contracts can be for up to 10 years and a project can have a life of 25 years or 100 years.

For further information, or to talk it over, please call Louisa on: 0417 280 540.

Here is a short explanation of the method.

### What does a “human induced regeneration of an even aged native forest” project look like?

- This method allows for establishment of **permanent native forests**
- The regeneration involves managing or removing external pressures that prevent regrowth from occurring. Mainly this will mean the removal of stock pressure.
- The method applies to projects where land where regrowth has been suppressed for at least 10 years. You need evidence of this. (e.g. Stock records)
- You can get an income for 25 years.
- You can have it as a 100 year project or 25 years. If you choose 25 years, they will reduce your carbon credits by 20%

### Grazing allowed.

- Livestock are permitted in the project area in certain circumstances. They must not prevent the forest from achieving its height.
- Trees may be thinned for ecological purposes after project commencement.

### How does this method work?

The human-assisted regeneration of forest under this methodology means undertaking one or more of the following land management activities:

- keeping livestock out of the area
- managing the timing and the extent of grazing
- managing, in a humane manner, feral animals
- managing plants that are not native to the project area
- ceasing mechanical or chemical suppression activities.

## 5. Beef Herd Improvement – Earn a Carbon Credit by reducing methane in your Cattle Herd

The methane emitted from cattle is thought to be a major contributor to the CO<sub>2</sub> in the air.

In this method, you can be rewarded for reducing the methane coming from your cattle. It is suited to larger herds, but could also be very good for a Cattle Group who believe they are turning off cattle earlier or have some other improvements which will reduce the methane from the herd. Please note that the 'action' to reduce methane is not restricted – so if you have some new technology – go for it.

For further information or to talk it over, just contact Louisa on 0417 280 540.

### POTENTIAL ACTIONS To Gain a Credit:

Improvement in the live weight gain for age enables target weights to be reached earlier.

**You must use the Beef Herd Calculator.**

**EXAMPLES** (not an exhaustive list – freedom to choose any method if it can be shown to reduce methane emissions)

- Supplementary feed.
- Install fencing on rangeland properties, (grazing management).
- Sell larger numbers of cattle to a finisher.
- Genetics.
- Other activities allowed so long as they can be shown to have an effect on emissions. Better feed, etc.
- Does not prohibit changes in herd composition. Age etc.

### Mechanics

- Liveweight gain values are used to derive emissions intensity values
  - Emissions are related to feed intake per day, the duration of that feed intake and the protein content and DM digestibility of the feed. These factors are incorporated in abatement calculations, **and where a change in diet is a project activity, details of the change are required as an input to calculations.**
1. Liveweight and LWG Liveweight can be done by weighing, or where this is not practical, through verifiable alternative means.
  2. Need records from 3 of the last 7 years (don't have to be sequential) But as close to date of application as possible. LWG must be greater than zero.
  3. Majority of feed has to be pastures.
  4. Need some evidence that the 'new' practice will reduce emissions.
  5. Must be able to identify members of each group of animals as defined by, the herd, the livestock class and the date of entry into the herd.

**MINUTES OF THE COBAR YOUTH COUNCIL  
MEETING HELD IN THE COBAR YOUTH & FITNESS CENTRE ON  
MONDAY 9 SEPTEMBER 2019 COMMENCING AT 4:48PM**

---

**PRESENT:** Kelly Archer, Narelle Kriz, Katie Archer, Andrew Roberts and Clr Julie Payne.

**APOLOGIES:** Chloe Polack, Angela Shepherd and Konnah Sime.

---

**MINUTES FROM THE PREVIOUS MEETING**

**MOTION:** That the Minutes of the Meeting held on Monday, 12<sup>th</sup> August 2019 be accepted as true and correct record of that Meeting.

*Kelly Archer/ Andrew Roberts*

**CARRIED**

**BUSINESS ARISING FROM MINUTES**

- The Publicity Officers were reminded again about making posters regarding the recruitment of new committee members for the town and school. Andrew to follow up;
- The Blacktown Youth Conference nominations were to be handed in for those interested in going, for attendance on the 12 - 16<sup>th</sup> September 2019. The nominations were received from Angela Shepherd and Kelly Archer, but Angela has pulled out, so Katie and Kelly Archer will be attending along with Narelle;
- The Miner's Ghost Festival – Narelle obtained quotes for this event but they seem to be very expensive, Narelle has spoken to Council's Tourism Manager, Demi Smith about other options.
- The Cobar Youth Council discussed the shirts and the sizes needed for them. Narelle advised that she has not received the sizing – and will follow up with Angela.

**GENERAL BUSINESS**

- The Cobar Youth Council discussed the need for a Youth Development Officer to carry out the requirements of the Youth Development Plan. Without a Youth Development Officer the youth of Cobar are missing out on youth programs. Due to current staffing levels the planning, delivery and evaluation of the programs, along with consultation, to improve the outcomes for the youth in Cobar has not been achieved;
  - The Youth Council have also voiced the concern of the old building and the upkeep of the games room and would like to support Councils bid to upgrade the facilities at the Cobar Youth and Fitness Centre, which includes the youth games activities area and the outdoor area for the younger children.
- 

**CORRESPONDENCE**

Email from Blacktown Council to say that they are offering us financial assistance approximately \$1,200 for conference attendance, travel and accommodation.

**NEXT MEETING**

The next meeting for the Cobar Youth Council will be held on Monday, 7<sup>th</sup> October 2019 at 4:30pm in the Youthie.

<b>THERE BEING NO FURTHER BUSINESS THE MEETING CLOSED AT 4.54PM</b>

**MINUTES OF THE LIQUOR ACCORD COMMITTEE MEETING HELD  
IN THE COBAR SHIRE COUNCIL CHAMBERS ON  
TUESDAY 13 AUGUST 2019 COMMENCING AT 2:00PM**

---

**1. WELCOME & APOLOGIES**

**Present:**

Mrs Linda Carter	Manager	Cobar Memorial Services
Mrs Cindy Bryan	Owner	Empire Hotel
Mr Andrew Bryan	Owner	Empire Hotel
Janette Booth		Cobar Shire Council
Peter Vlatko	General Manager	Cobar Shire Council
Luke Anderson	Operations Manager	Cobar Bowling & Golf Club
Sgt Karen Bartholomew		NSW Police
Sgt Chris Power		NSW Police

**Apologies:**

Cr Lilliane Brady OAM	Mayor	Cobar Shire Council
The Grand Hotel		

**RESOLVED:**

That the apologies received from Cr Lilliane Brady OAM and The Grand Hotel be accepted.

*Cindy Bryan/ Linda Carter*

**CARRIED**

---

**2. PUBLIC ADDRESS SESSION**

Nil.

---

**3. ADOPTION OF PREVIOUS MINUTES**

**Resolved:**

That the minutes of the previous meeting held on Tuesday, 11 June 2019 be confirmed as a true and correct record of the proceedings of that meeting.

*Cindy Bryan/ Andrew Bryan*

**CARRIED**

**4. BUSINESS ARISING FROM THE MINUTES**

Nil.

---

**5. CORRESPONDENCE**

---

THIS IS PAGE 1 OF THE MINUTES OF THE LIQUOR ACCORD COMMITTEE MEETING  
HELD IN THE COBAR SHIRE COUNCIL CHAMBERS ON TUESDAY 13 AUGUST 2019

SIGNED:  
CHAIRPERSON

SIGNED:  
SECRETARY

- 
- Bank Signatory – Authorisation on NAB Account;
  - Liquor Accord Members – Cobar Bowling & Golf Club Banning Notice.
- 

## **6. ITEMS OF BUSINESS**

### **6.1 2018/2019 LIQUOR ACCORD ANNUAL FEES (\$50)**

All in attendance advised of the outstanding Annual 2018/2019 Fees:

- The Grand Hotel.
- 

Peter Vlatko arrived at 2:05pm.

### **6.2 2019/2020 LIQUOR ACCORD ANNUAL FEES (\$50)**

All in attendance given Annual 2019/2020 Fees Invoice, the remainder will be posted.

---

### **6.3 BARRED PATRONS**

Discussions have been held on Barred Patrons.

It has been suggested that Lifetime bans be given when a patron commits a criminal act or offence against a staff member(s) or emergency services personnel.

It has been agreed by all Pubs and Clubs and Khans IGA Bottleshop to issue a Lifetime Ban to the patron involved in the recent Golfie incident.

Other pubs and clubs have not been receiving information on barred patrons for flash bans from the Western.

---

### **6.4 LICENCED PREMISES REPORT**

Discussions have been held on what has been happening with the Licensees and the establishments in attendance.

Golfie no longer serves shots, also have a door person checking membership cards, have increased security and CCTV, new policy being implemented following incident.

Drugs and monitoring the effects are a very big problem.

---

## **7. POLICING MATTERS**

### **7.1 GENERAL POLICING MATTERS**

---

THIS IS PAGE 2 OF THE MINUTES OF THE LIQUOR ACCORD COMMITTEE MEETING HELD IN THE COBAR SHIRE COUNCIL CHAMBERS ON TUESDAY 13 AUGUST 2019

SIGNED:  
CHAIRPERSON

SIGNED:  
SECRETARY

---

All in attendance have been advised to know their Licence Conditions.

Discussions have been held on alcohol related incidents.

## **7.2 INCIDENTS AT LOCAL PREMISES**

Contingency plans for mine layoffs, so pubs and clubs can be advised of potential patron influxes.

---

## **8. COUNCIL MATTERS**

### **GENERAL MANAGER'S REPORT**

Smoking in front of The Grand Hotel has become an issue, smoking should not occur within 4 meters of a premises entrance – Council will address this issue with them.

CCTV – Council are applying for grants to do the whole town.

Discussions have been held on upcoming Festivals and Events in Cobar:

Grey Mardi Gras:

- The next event will be held at Easter – 3-6 April 2020.
- A flier has been created and will be sent out shortly.
- They have started a Committee and are looking at improvements for the next event/ which will be based on the template for the following.
- GMG to include special notice of Cobar events of the 1960s and 1970s, which were prosperous and active decades, seeing the opening of the High School, the sealing of the Barrier Hwy, the opening of the CSA, many new houses, the filtration plant, and so on. This will include guided and self-guided town tours.

Council are looking at theming both Grey Mardi Gras (GMG) and the Festival of the Miner's Ghost (FoMG).

FoMG to include a special grandparents and grandchildren "Ask Me Anything" event.

We are looking to have a brass band play at FoMG events.

It is hoped that the Miners Memorial will be at a viewable stage.

There will be a display related to the Miners Memorial with stories of the miners, their families, and the community.

Events independent of these festivals may include a community slide night and a community concert.

The Show Society are planning to theme the pavilion.

---

**THIS IS PAGE 3 OF THE MINUTES OF THE LIQUOR ACCORD COMMITTEE MEETING  
HELD IN THE COBAR SHIRE COUNCIL CHAMBERS ON TUESDAY 13 AUGUST 2019**

**SIGNED:  
CHAIRPERSON**

**SIGNED:  
SECRETARY**

---

Council have applied CASP grants to run art programs related to the 150 years and intended to include exhibitions of art.

Discussions held on whether the Running on Empty Festival will be held in 2020.

---

## **9. GENERAL BUSINESS**

Lloyd Brooks has presented on overdoses on prescription drugs and nasal sprays to reverse the effect of the drugs, pregnant women may require a double dose. Narcan and Naloxone nasal sprays are sold at the Chemist in Cobar.

The product blocks the opiates, no training is required to administer the products, they are simply sprayed up the nose, the cost for a 2 pack is approximately \$100.

Amendment to Minute Item 6.6 of the June Minutes:

### **6.6 ELECTION OF NEW DEPUTY CHAIRPERSON AND BANK SIGNATORY**

#### **Election of Deputy Chairperson**

Brad Beeson of the Cobar Bowling and Golf Club was nominated and elected as Deputy Chairperson and has been approved and authorised as a Bank Signatory on the Cobar Liquor Accord NAB Account.

*Linda Carter/ Lilliane Brady OAM*

**CARRIED**

The Minutes have also been amended to include a signature section, so that the Signatory can be added to the Liquor Account. These will need to be signed by the Chairperson and Secretary.

Nightshift workers 11:00am rule - there are some premises that aren't enforcing this rule.

It has been noted that no representative from The Grand Hotel has been at the last three meetings.

It has been suggested that the Liquor Accord start having stories featured in the paper: the stories can be to advise the community of the Liquor Accord Rules, what do the Accord do?, chances of being barred for incidents, i.e. Lifetime bans and the repercussions of these such as what happens you can't even go to the Bottleshop? The reasons why pubs and clubs have memberships and the fines associated with having non-members on the premises, the aim of the stories would be for community education.

---

**THIS IS PAGE 4 OF THE MINUTES OF THE LIQUOR ACCORD COMMITTEE MEETING HELD IN THE COBAR SHIRE COUNCIL CHAMBERS ON TUESDAY 13 AUGUST 2019**

**SIGNED:  
CHAIRPERSON**

**SIGNED:  
SECRETARY**

---

Correspondence to be received from Cobar High School – they want to run an RSA and RCG course for 20 students, the course will cost \$290 per student and they would like the Accord to contribute – To be placed on the Agenda for the next meeting (after correspondence has been received).

On 7 September – Keno night at the RSL.

---

**9. NEXT MEETING**

Tuesday, 8 October 2019 at 2:00pm in the Council Chambers.

**THERE BEING NO FURTHER BUSINESS THE MEETING CLOSED AT 3:00PM**

---

**THIS IS PAGE 5 OF THE MINUTES OF THE LIQUOR ACCORD COMMITTEE MEETING

**MINUTES OF THE LIQUOR ACCORD COMMITTEE MEETING HELD  
IN THE COBAR SHIRE COUNCIL CHAMBERS ON  
TUESDAY 8 OCTOBER 2019 COMMENCING AT 2:02PM**

---

**1. WELCOME & APOLOGIES**

**Present:**

Mrs Linda Carter	Manager	Cobar Memorial Services
Brytt Moore		Cobar Shire Council
Cr Lilliane Brady OAM	Mayor	Cobar Shire Council
Brad Beeson	Manager	Cobar Bowling & Golf Club
Sgt Chris Power		NSW Police
Boz Simeonovic	Manager	Town & Country
Lloyd Brooks		Royal Flying Doctor

**Apologies:**

Peter Vlatko	Cobar Shire Council
Sgt Karen Bartholomew	NSW Police Force.
Janette Booth	Cobar Shire Council

**RESOLVED:**

That the apologies received from Peter Vlatko, Sgt Karen Bartholomew and Janette Booth be accepted.

***Brad Beeson/ Linda Carter***

**CARRIED**

---

**2. PUBLIC ADDRESS SESSION**

Nil.

---

**3. ADOPTION OF PREVIOUS MINUTES**

**Resolved:**

That the minutes of the previous meeting held on Tuesday, 13 August 2019 be confirmed as a true and correct record of the proceedings of that meeting.

***Linda Carter/ Boz Simeonovic***

**CARRIED**

**4. BUSINESS ARISING FROM THE MINUTES**

Motion 6.6 was moved and amended from the Meeting Minutes of the Meeting held on 11 June 2019, were Mayor Lilliane Brady OAM moved the Motion, additional information was required to be added to the Minutes.

The original Motion was then brought to the 13 August 2019, as the Minutes needed to be signed by the Chairperson to approve Brad Beeson to the Accord Bank Account. Hence, the Motion being re-put, with the original mover and seconder.

---

## 5. CORRESPONDENCE

- Plan B "Win a Swag Competition" participants:

- Golfie;
- Western;
- RSL;
- Grand.

### Motion:

That the Grand Hotel shouldn't be able to participate in the Plan B "Win a Swag" promotion without being an active financial member of the Cobar Liquor Accord.

*Linda Carter/ Mayor Lilliane Brady OAM*

**LOST**

Sgt Power to investigate the legalities from Sgt Karen re: enforcing all Clubs and Pubs within Cobar (not Cobar Shire) to be active members of the Cobar Liquor Accord) and bring it to the next meeting.

Rachel Warren arrived at the meeting at 2:05pm.

---

## 6. ITEMS OF BUSINESS

### 6.1 2019/2020 LIQUOR ACCORD ANNUAL FEES (\$50)

All in attendance advised of the outstanding Annual 2019/2020 Fees:

- The Grand Hotel;
- Khans IGA;
- Town and Country;
- Copper City Hotel;
- Cobar Miners Race Club.

---

### 6.2 BARRED PATRONS

Discussions have been held on Barred Patrons.

---

### 6.3 LICENCED PREMISES REPORT

The Golfie are now closing their doors at 11pm on entertainment nights (exit only, no entry). The Golfie will also be implementing a rule of one drink per person after 11pm.

The RSL held discussion on their recent Keno Night: they enforced an earlier curfew, had RSA Marshals and security.

---

**7. POLICING MATTERS**

**7.1 GENERAL POLICING MATTERS**

All in attendance have been advised to know their Licence Conditions.

Monitor intoxication levels.

---

**7.2 INCIDENTS AT LOCAL PREMISES**

Discussions held, with no recorded incidents.

---

**8. COUNCIL MATTERS**

Smoking in front of the Grand Hotel still an issue. Patrons are not 4m from the entrance when smoking.

---

**9. GENERAL MANAGER'S REPORT**

No report provided.

---

**10. GENERAL BUSINESS**

Cobar High School – RSA and RSG Course – Sponsorship it has been approved that the Cobar Liquor Accord provide \$500.00.

Lloyd offering free Alcohol and Drug courses. Courses can be tailored to each premises (re duration, content, etc).

Rachel notified all in attendance of underage drinker 'Eve Arnold'. Serial offender and Barred from the Great Western Hotel because of her repeated offences.

---

**9. NEXT MEETING**

Tuesday, 10 December 2019 at 2:00pm in the Council Chambers.

**THERE BEING NO FURTHER BUSINESS THE MEETING CLOSED AT 2:35PM**

Road #	Road/Project Name	Road/Project Length	Preliminary Estimate	Actual Costs as at 30.09.2019	September					October					November			Comments
